PROJECTS

Client: Capgemini (Internal)

I have developed a Rest API on estimations which is responsible for fetching the estimated and stored efforts of employees.

Responsibilities:

- Backend Developer responsible for developing modules and integrate them with the frontend functionalities of the Web Site.
- It is developed using Java, Spring, SQL, Angular.
- This Rest API will be communicating with the frontend functionalities which is developed Angular.
- It enables the employees of an organization to update their daily routine.
- Manager can verify the details and can filter the data according to the requirement and can generate the reports in different formats.

Client: PWC

We have developed a web application called Short Term Business Traveler (STBT), which will generate diverse fields of Taxes. My part was to create the Batch Jobs, maintain the application and upgrade the application.

Responsibilities:

- Java Full Stack Developer responsible for end-to-end web app development and maintaining the functionalities of the application. Developed using Java, PHP, JavaScript, MS-SQL.
- Involved in developing batch jobs in Java, UI modules in PHP, JavaScript.
- These batch jobs are developed to reduce manual presences.
- Finding root cause analysis to reduce the number of issues by suggesting the fixes.
- Updating the data in MS-SQL Databases for the filtering the data as per client requirements.
- For improving the security of the application and to do static analysis Veracode tool is used.
- Controlling the project flow and ensuring deliverable on time

Client: POC

I have developed a Courses Dashboard application to add Courses into the application using Flux in React JS.

Responsibilities:

- Front end Developer responsible for developing modules and populate the courses dashboard in the Web Site.
- It is developed using React JS and Flux.
- Used a Mock API to communicate with the frontend functionalities which is developed in JSON.
- It enables the user to add, remove, modify the courses in the dashboard and the data is stored in the JSON file.

EXTRA CURRICULAR ACTIVITIES

- Organized CMAT events at Capgemini.
- Participated in sports quizzes.

INTERESTS AND HOBBIES

- Enthusiastic in knowing creative things.
- Following politics, Playing cricket.

EDUCATION

- B. Tech – Computer Science Engineering, Lovely Professional University, 2015-2019, CGPA – 8.03.
- Intermediate – Sri Chaitanya Junior College, 2013-2015, 92%.
- SSC – Sri Chaitanya Techno School, 2012-2013, 90%.

PERSONAL DETAILS
